Safety Data Sheet

Oil Red O Solution 1L

Classified as: Non-hazardous according to the EPA Hazardous Substances (Hazard Classifications) Notice 2020.

Section 1: SUBSTANCE AND SUPPLIER DETAILS

Product Name: Oil Red O Solution 1L

Product Code: AFS-ORO

Supplier: Aorangi Forensic Supplies Ltd
20 Graham Street
Petone
Wellington
New Zealand

Phone: +64 4 939 1527

Recommended Use: Forensic Staining Solution

In Case of Emergency Contact:

CHEMCALL: 0800 CHEMCALL (243 622)

Section 2: HAZARDS IDENTIFICATION

This product is not classified as a Dangerous Good for Transport.

This product is not classified as hazardous according to criteria in the EPA Hazardous Substances (Hazard Classifications) Notice 2020.

HSNO APPROVAL NUMBER: **Not applicable**

HSNO CLASSIFICATIONS: Not applicable

GHS Classification: Not applicable

Hazard Statements: None.

GHS Pictograms: None

PREVENTION STATEMENTS: None

RESPONSE STATEMENTS: None

STORAGE: None

DISPOSAL:
Refer to Section 13 of the SDS.

Date of issue: 15 April 2024
Revised by: Simonne Moses - HSNO Consultant SDS No: 1

Section 3: COMPOSITION / INFORMATION ON INGREDIENTS

Mixture: Staining solution for forensic analysis.

| Main Component | CAS Number | Concentration (%wt) |
|---|------------|---------------------|
| Propylene glycol | 57-55-6 | > 99% |
| 2-Naphthalenol, 1-[[4- [(dimethylphenyl)azo]dimethylphenyl]azo]- | 1320-06-5 | 0.05% |

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Section 4: FIRST AID MEASURES

Workplace Facilities Required: Eye and hand-washing facilities should be provided where large quantities are handled or stored.

If Inhaled: Remove to fresh air. Seek medical attention if symptoms develop and persist.

In Contact with Eye: Hold eyes open, flush continuously with water for at least 15 minutes. Seek medical attention if irritation develops and persists.

In Contact with Skin: Wash skin with plenty of water, while removing contaminated clothing and shoes. Wash contaminated clothing before re-use. Seek medical attention if skin irritation develops and persists.

If Swallowed: DO NOT INDUCE VOMITING. Rinse mouth. Give small quantities of water. Never give anything by mouth to an unconscious person. If unconscious, seek immediate medical attention. If vomiting occurs, keep head below hips to prevent aspiration to lungs.

Advice to Doctor: Treat symptomatically.

Section 5: FIRE FIGHTING MEASURES

Fire/Explosion Hazard: Product is not flammable or combustible. Containers may burst if heated.

Suitable Extinguishing Media: Use extinguishing agents suitable for surrounding fire.

Precautions in Connection with Fire: May give off toxic fumes in a fire containing oxides of carbon, and aldehydes such as formaldehyde, acetaldehyde which are potentially carcinogenic.

Advice for firefighters: Wear full firefighting gear and self-contained breathing apparatus. Move containers from path of fire if safe to do so. Cool fire exposed containers with water spray.

Section 6: ACCIDENTAL RELEASE MEASURES

Precautions: Keep unnecessary and unprotected personnel from entering area. Avoid contact with skin and eyes.

Suitable Protective Equipment: Emergency responders must use personal protective equipment, including gloves, protective clothing, and safety glasses.

Date of issue: 15 April 2024
Revised by: Simonne Moses - HSNO Consultant SDS No: 1

Spill or Leak Procedures: Absorb with suitable material such as sand, earth, vermiculite. Collect into a suitable waste container for disposal. Ensure waste container is properly labelled.

Waste Disposal Methods: Dispose of as per Section 13.

Emergency preparation: Ensure there is appropriate and adequate personal protective equipment, trained personnel and clean up materials for management of accidental release.

Section 7: HANDLING AND STORAGE

Precautions for Safe Handling: Avoid contact with skin and eyes. Do not eat, drink, or smoke when using this product. Remove contaminated clothing and wash hands and face before entering eating areas.

Storage: Keep in original labelled container. Keep container tightly closed when not in use. Store in a cool, dry, well-ventilated area.

Site Storage Requirements: No special requirements.

Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Workplace Exposure Standards NZ: No Workplace Exposure Standards have been established for this product but have been established for the following ingredient:

Propylene glycol: Particulates only, TWA 10 mg/m³
Propylene glycol: Vapour and particulates, TWA 150 ppm, 474 mg/m³

Engineering Controls: Eye and hand-washing facilities should be provided in the work area where large quantities are handled or stored. Not an inhalation risk during normal use.

Personal Protective Equipment: Avoid contact with skin and eyes.

Hand protection: Wear protective gloves that are resistant to the product, e.g., PVC. Refer to Australian and New Zealand Standard AS/NZS 2161 for protective gloves.

Skin and body protection: Wear protective clothing to avoid skin contact. Wash work clothes regularly. Refer to Australian and New Zealand Standard AS/NZS 4501 for occupational protective clothing.

Eye protection: Wear eye protection to prevent contact with eyes. Refer to AS/NZS 1336 for suitable eye protection.

Respiratory protection: Not required during normal conditions of use.

Other information: PPE selected must be impervious to the substance. Do not eat, smoke, or drink where material is handled, processed, or stored. Wash hands carefully before eating, drinking, or smoking. Handle in accordance with safe industrial hygiene practices.

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

| | | | |
|--------------------------------|-------------------|----------------------------------|---------------|
| Description: | Liquid | Colour: | Red |
| Odour: | None | Odour Threshold: | Not available |
| pH (20°C): | 7 | Solubility (water, 20°C): | Miscible |
| Freezing/Melting point: | <-59°C (Freezing) | Boiling Point: | 186-189°C |

Date of issue: 15 April 2024
Revised by: Simonne Moses - HSNO Consultant SDS No: 1

| | | | |
|---|----------------|--------------------------------|----------------|
| Flammability: | Non-flammable | Flash Point: | Not applicable |
| UEL/LEL: | Not applicable | Vapour Pressure (20°C): | Approx. 7 Pa |
| Decomposition Temp: | Not available | Autoignition Temp: | 371 – 421°C |
| Density: | 1.036 kg/L | Vapour Density (20°C): | 2.5 (Air = 1) |
| Partition Coefficient: n-octanol/water | Not available | Viscosity (20°C): | 55 mPa.s |
| Particle Characteristics: | Not applicable | | |

Section 10: STABILITY AND REACTIVITY

Stability: Stable under normal storage conditions.

Reactivity: None expected under normal conditions of use.

Conditions to Avoid: High temperatures.

Incompatibility: Incompatible with strong oxidising agents, strong acids, strong bases, isocyanates.

Hazardous Decomposition: Thermal decomposition may result in toxic fumes containing oxides of carbon, and aldehydes such as formaldehyde, acetaldehyde which are potentially carcinogenic.

Section 11: TOXICOLOGICAL INFORMATION

Acute Exposure

Acute Toxicity: Not classified as acutely toxic.
LD₅₀ oral > 2,000 mg/kg.
LD₅₀ dermal > 2,000 mg/kg
LC₅₀ inhalation > 5 mg/L (mist)

Inhalation: Not expected to be a respiratory irritant.

Ingestion: Not expected to be acutely toxic via ingestion. Ingesting large quantities may cause gastrointestinal irritation, nausea, and vomiting.

Skin Corrosion/Irritation: Not expected to be corrosive or irritating to skin.

Serious Eye Damage/Eye Irritation: Not expected to be corrosive or irritating to eyes.

Respiratory or Skin Sensitisation: No information available. Not expected to be a respiratory or contact sensitiser.

Chronic Exposure:

Mutagen/Carcinogen/Reproductive Toxicant No information available. Product is not expected to be mutagenic, carcinogenic or a reproductive toxicant.

Specific Target Organ Toxicity Single Exposure: No information available. Not expected to be a specific target organ toxicant by single exposure.

Date of issue: 15 April 2024
Revised by: Simonne Moses - HSNO Consultant SDS No: 1

Specific Target Organ Toxicity Repeated Exposure: No information available. Not expected to be a specific target organ toxicant by repeated exposure.

Aspiration Hazard: No information available. Not expected to be an aspiration hazard.

Section 12: ECOLOGICAL INFORMATION

Ecotoxicity: Product is not classified as toxic or harmful to the aquatic environment.

Persistence/degradability: Readily biodegradable.

Bioaccumulation: Not expected to bioaccumulate.

Mobility in soil: No information available.

Other adverse effects: None identified.

Ingredients with Ecotoxic classifications: There are no ingredients with ecotoxic classifications.

Section 13: DISPOSAL CONSIDERATIONS

Disposal: Recycle and reuse wherever possible. Dispose of waste product via an approved waste disposal contractor.

Disposal of Packaging: Dispose of packaging via an approved waste disposal contractor.

Section 14: TRANSPORT INFORMATION

This product is not classified as a Dangerous Good for transport in accordance with NZS5433:2020, IMDG or IATA.

Ensure transportation methods prevent leakage from packages and collapsing loads.

Section 15: REGULATORY INFORMATION

Group Standard Allocation: Not applicable

HSNO Approval Code: Not applicable

Classifications: Not applicable, non-hazardous

NZ Inventory of Chemicals: All ingredients are listed in the NZ Inventory of Chemicals Database.

Section 16: OTHER INFORMATION

The information provided in this Safety Data Sheet relates only to the specific material designated herein. This Safety Data Sheet summarises our best knowledge of the health and safety hazard information of the product and

Date of issue: 15 April 2024
Revised by: Simonne Moses - HSNO Consultant SDS No: 1

how to safely handle the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including its use in conjunction with other products.

This substance is non-hazardous. All reasonable care has been taken to ensure that the information and advice contained herein are from sources believed to be reliable and to represent the most up-to-date knowledge available at the date given in Section 16. No liability is assumed for any damages related to the use or misuse of this substance.

All chemical materials may present unknown hazards as people have varying degrees of sensitivity to chemicals. Therefore, this product should be used with caution. The information herein is given in good faith, but no warranty, express or implied is made.

SDS Issued: 15 April 2024

Reason for Revision: New product SDS
